PRODUCT CLEANING GUIDE

# One Step Brushless Detergent

Truck Wash Supreme SC is a one step brushless truck wash that is safe on all painted surfaces and polished aluminum. Truck Wash Supreme SC is extremely quick rinsing and has the ability to be spot brushed (if necessary) on heavy stains without leaving brush marks after rinsing. The product leaves a great shine and uses no petroleum solvents to achieve the clean; it is completely biodegradable.

### Advantages

- Versatile truck wash detergent
- Safe on polished aluminum
- No petroleum solvents
- Completely Biodegradable

Truck Wash Supreme will make the aluminum on your truck shine. A one step brushless wash that is safe on all painted surfaces and polished aluminum.

# Removes Virtually Any Dirt, Soil, or Stain on a Painted Surface

Glory BC (Blender's Concentrate) utilizes the "Million Mile Shine" system. The paint will look as good at the end of the vehicles life as it does in the beginning. The paint will be protected from environmental damage and will clean more easily. The benefits that regular use of Glory BC will provide are brushless vehicle washing, spot free drying, super fast rinsing and safe on paint. Glory BC removes virtually any dirt, soil, or stain that is on a painted surface. The soap will rinse freely even if it dries on the surface in high heat environments.

Before

After

Glory BC is a completely brushless truckwash that will keep the paint looking newer longer.

# HDSABRE

## Aluminum Brightener | Complex Ion Solubilizer

HD Sabre is a non-hydrofluoric acid, biodegradable general purpose cleaner. HD Sabre is used to clean aluminum, stain-less steel truck bodies (non-coated), and the floors of food trailers. The product is safe around glass when at use dilutions. When HD Sabre is used properly, cleaning leaves a nice shine. This product will remove many kinds of mineral, metal, and food stains or buildups. It is an excellent cleaner on fiberglass, tile, and porcelain and the metal finishes commonly found in wash areas. Over time, HD Sabre improves safety and efficiency when cleaning the floors of food trailers.

Before

After

### Advantages

- Contains no hydrofluoric acid
- HD Sabre will not etch glass if it dries at use dilutions
- Safe for people and paint
- Brushless cleaning on aluminum
- Leaves antioxidant coating
- Reclaim friendly

This contractor used HD Sabre to clean this stainless steel tanker truck to a brand new professional look.

# SABRE

# II

## Brushless Truck Wash - Brake Dust Remover

Sabre II is a brushless truck wash and brightener for polished aluminum and non-coated stainless steel Sabre II is excellent at removing even the most stubborn brake dust residue, leaving rims looking virtually brand new. When used as directed,

Sabre II will remove some of the industries toughest stains. Sabre II can be used as a single step application or as a two-step application in conjunction with Dazzle BC.

Before

After

HD Sabre was used to clean this stainless steel tanker truck to a brand new professional look.

# Brushless Fleetwash

Supreme BC is a brushless, spot-free drying fleet and vehicle wash that is safe on painted surfaces including polished aluminum. Supreme BC leaves a great shine after removing virtually any dirt, soil or stain. It also works hot or cold, but should not exceed 120 degrees F.

Before

After

Supreme BC was safely used to clean this fuel tank and give it a great shine.

# Water Soluble, Non-Hazardous, Powerful Tar Melting Penetration

C-Tar Melt is a blend of water soluble, non-hazardous ingredients that give exceptionally powerful penetration and softening action. Do not dilute the product with water; product action will be stopped with the application of water. It is biodegradable and will aid in the separation of the tar residue from the rinse water if you contain and store the runoff for a short period of time. The ingredients do not harm the skin; skin will dry out if constantly exposed to the tar remover. C-Tar Melt is safe for wood, metal, brick, and masonry surfaces and will not raise the grain or cause discoloration of the surface on its own.

Before

After

C-Tar Melt removed the tar and road grime from this dump truck.

**PROVIDING THE BEST PRODUCTS FOR NEW CUNSTRUCTION CLEANING**

# Outstanding Removal of Inks & Paints

- Graf-Ex is an easy-to-use, multipurpose modern day stripper designed to be used where safety and performance are of equal importance.
- Graf-Ex is a non-dilutable product that is outstanding in the removal of inks and paints from painted surfaces.
- Graf-Ex does not harm most substrates and will not raise the grain of wood, cause flash rusting in metal or damage fiberglass. Graf-Ex is also an excellent adhesive remover, from decals to construction adhesives.

Graffiti on the doors of this delivery truck was removed using Graf-Ex. Graf-Ex is a non-hazardous, low odor liquid stripper that's safe on most substrates.

# Corrosive Salt Remover and Protectant

ConSALT safely removes corrosive and harmful salts that build up on your expensive road equipment and helps prevent damage to the painted surfaces. Your frames, undercarriages, aluminum and painted surfaces will experience prolonged life and less rust with good maintenance practices. ConSALT can also be used to clean out brine tanks and lines to prevent corrosive salt build-ups.

ConSalt removed the grease and road grime from this dump truck.
