Re-Imagine The Look Of Your Elevated Deck

A Low-Maintenance Alternative To Wood Decking

StoneDeks System is leading the way in outdoor living space innovation. We manufacture and distribute structural support for building or refinishing your deck with stone, porcelain, or any other pavers. Thanks to the StoneDeks System, it's easier than ever to build decks that are the beautiful, durable, and virtually maintenance-free deck of your dream.

Product line-up

SilcaGrate™: The foundation for your outdoor masterpiece!

Transform any space into a work of art with this patented structural support underlayment. From decks and patios to rooftops and docks, the possibilities are endless. Let your imagination run wild!

Meet the innovation that elevates your deck to perfection – SilcaSpacers™!

These specially designed spacers ensure precise spacing for your stone, porcelain, and pavers, resulting in a stunning, even finish. Get ready for a deck that's both beautiful and rock-solid.

Elevate your patio game with the Silca Soil Grid!

Create a rock-solid foundation for your hardscape projects, making them stronger and more durable than ever before. It's the secret to a patio that stands the test of time.

Create Unique Pool Decks With Stone And Pavers

Swim in style and luxury with a stone pool deck! This system makes it easy to install stone or pavers on any deck, whether existing or starting from scratch!

See How The StoneDeks System Works

A Better Way To Build Elevated Decks With Stone, Concrete, and Clay Pavers

A ground-level stone patio is lovely, but why not take it to the next level with an elevated stone deck?

This is precisely what our founder envisioned when he created the StoneDeks System, which takes the concept of stone patios to an entirely new height, literally.

Think about why you might want elevated stone decks and patios. An elevated stone deck gives you the same luxurious feel as a stone patio but with more versatility and height! Picture this – you can have a stone deck that overlooks the rest of your yard, allowing you to enjoy all the benefits of a stone patio but with an elevated view. Unique? Absolutely.

After installing our products directly on top of your deck frame, stone or pavers can be laid on top. This innovative grid system is designed to allow for drainage, giving you a worry-free elevated deck that you can enjoy for years.

The Marmara Stone Tile Is The Perfect Option

These perfectly imperfect tiles are designed to reinvigorate any space, whether you're doing a renovation of your kitchen, making a minimal bathroom update, or giving your deck an amazing look.

Our MARMARA tiles provide not only a stunning look, but also provides the durability that you want in high traffic areas.

The Versailles pattern provides different sizes laid out in a beautiful transition across any area.

Bring The Beauty And Durability Of Tiles And Pavers To Your Elevated Living Spaces With The STONEDEKS System
